Reasons for Being Attracted

Electrochromic 4-color, 1 lens with 4 colors

Instant color change in 0.1 seconds; switch among transparent, red, blue and purple with one click

Instant startup and instant shutdown, seamless

Power on when unfolded, power off when folded. No more cumbersome

Sound beams converge into the ear

Directional Sound Transmission Technology. Brand-new cyclone-type directional sound

Rich layers and pleasant sound quality

Bright and transparent treble, deeper bass extension, sub-bass compensation, continuously delivering dynamic sound effects

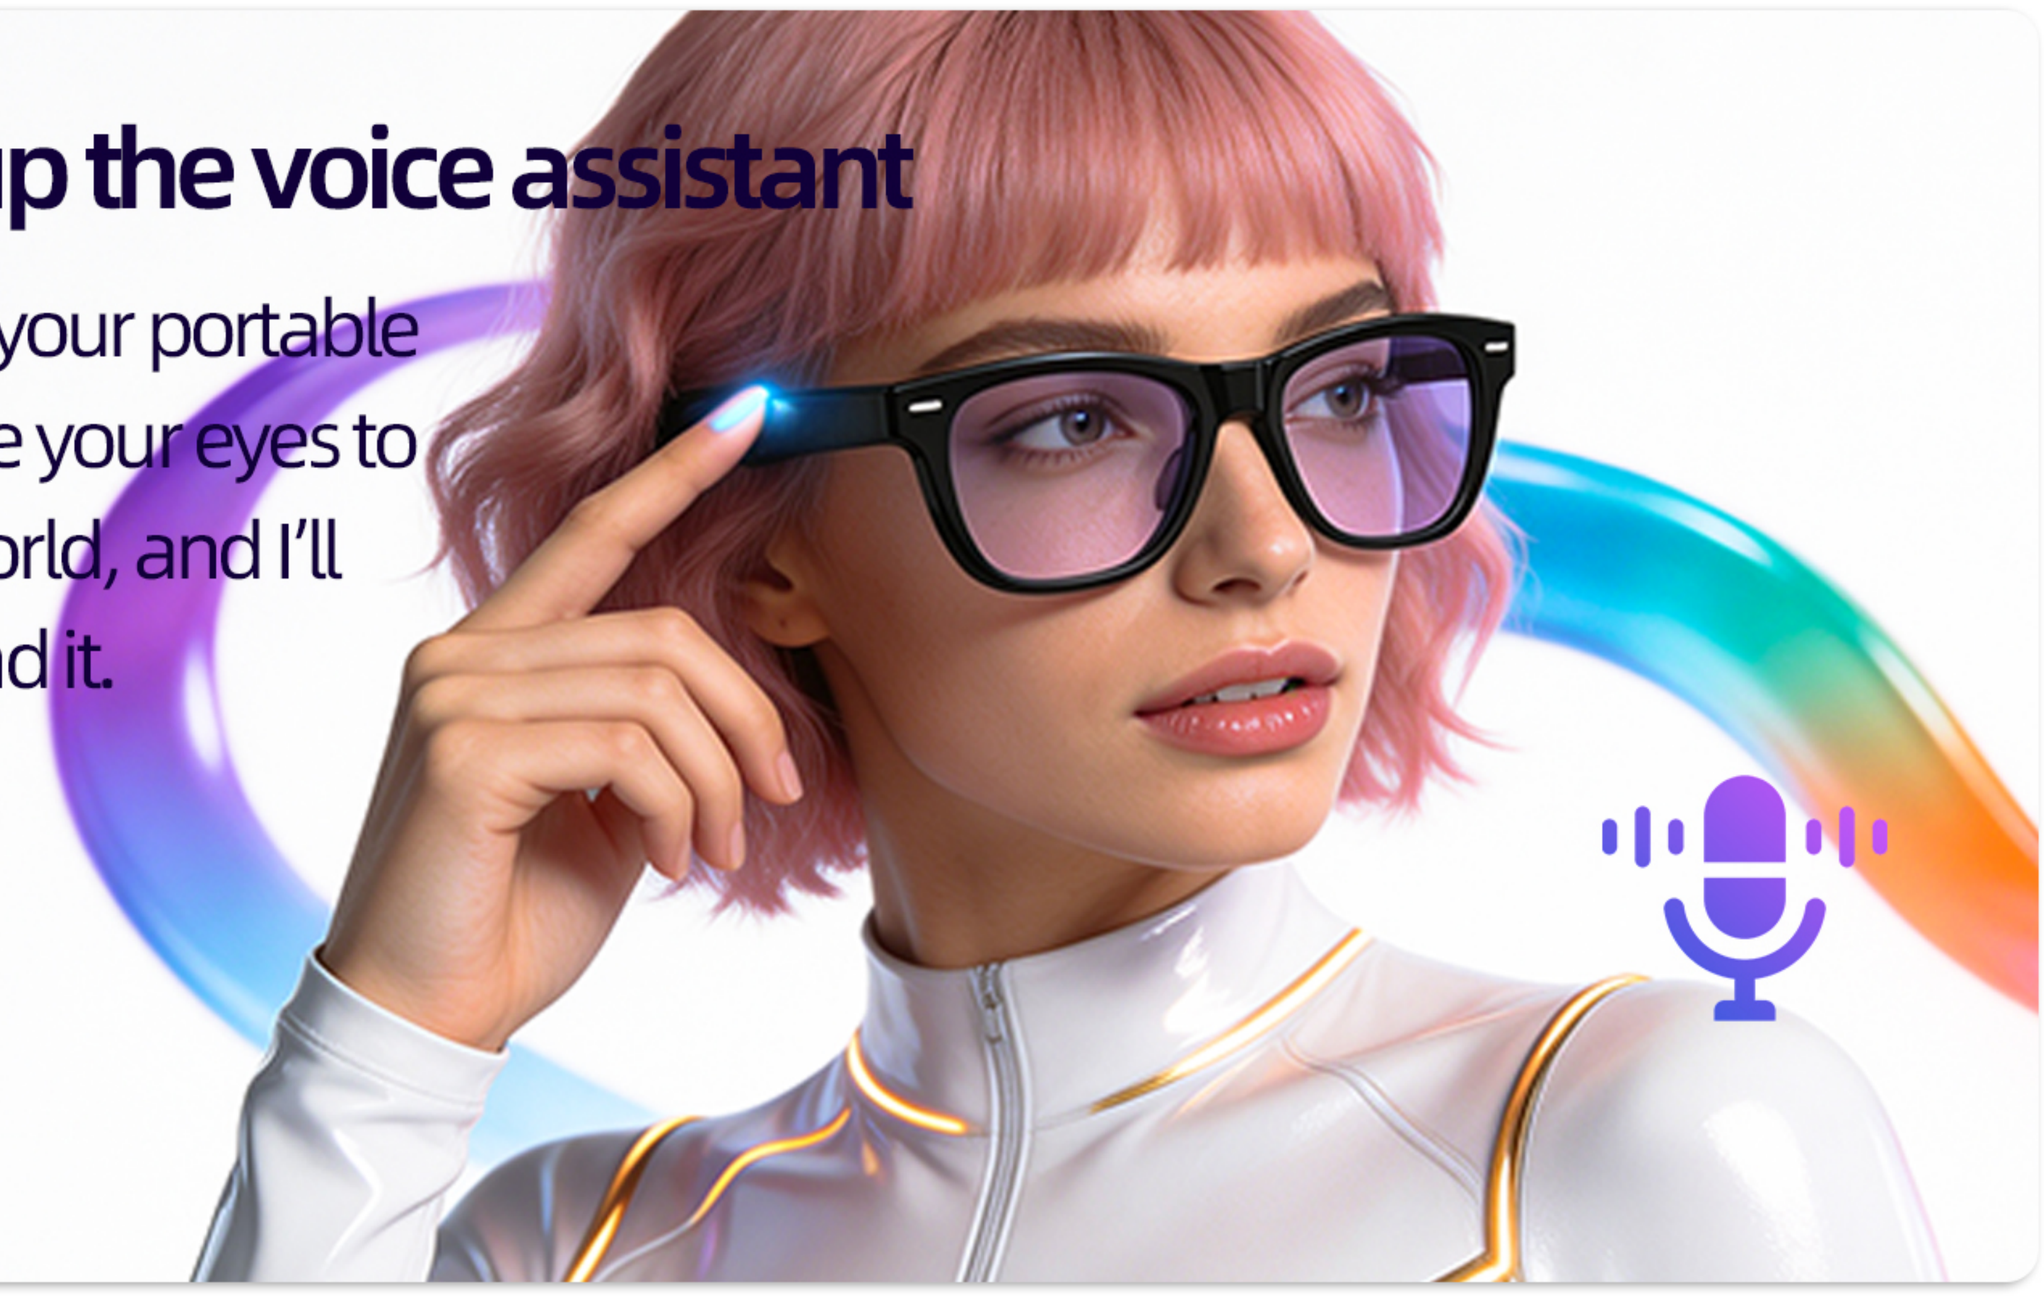

HD Voice Call

Dual-microphone AI noise reduction for precise voice capture

Wake up the voice assistant

Wake up, your portable AI. You use your eyes to see the world, and I'll understand it.

0.1s Ultra-fast Response, Four Colors Changing with Surroundings

Advanced electrochromic thin film technology drives ion migration with microcurrent, instantly altering the light transmittance and hue of lenses.

Open to power on, fold to power off

Smart Sensing: Pick up to listen, put down to pause

Unfold the temple arms
Power on

Foldable temple
Power off

Built-in high-precision Hall sensor for accurate recognition of opening and closing angles

One-click control within easy reach

Simple and convenient operation, no need to take out your phone

GET STARTED

POWER ON

Unfold the glasses

Voice Prompt: "Power On."

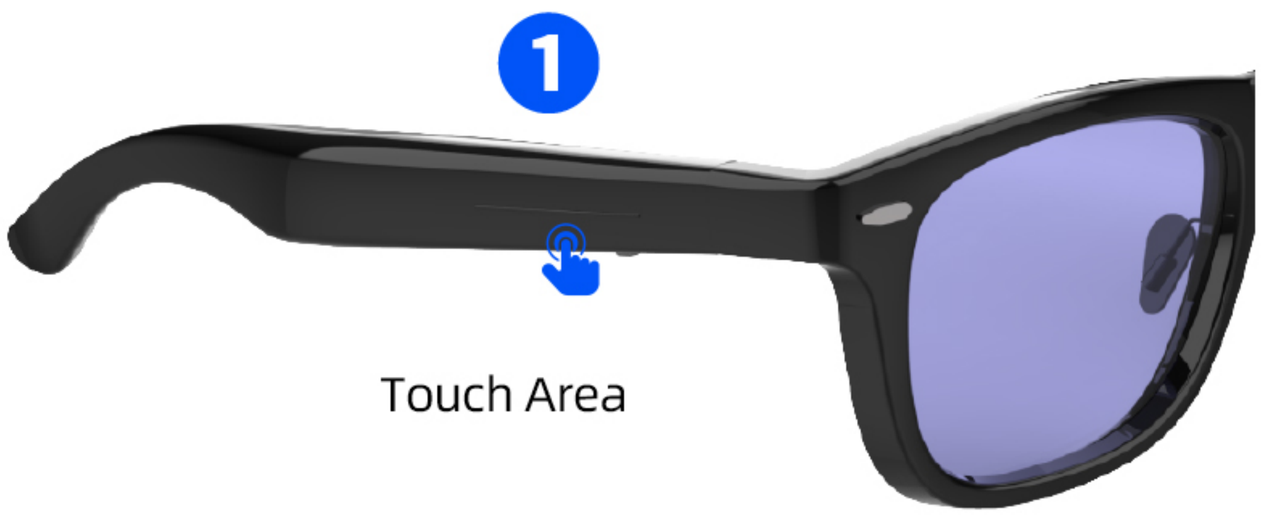

POWER OFF

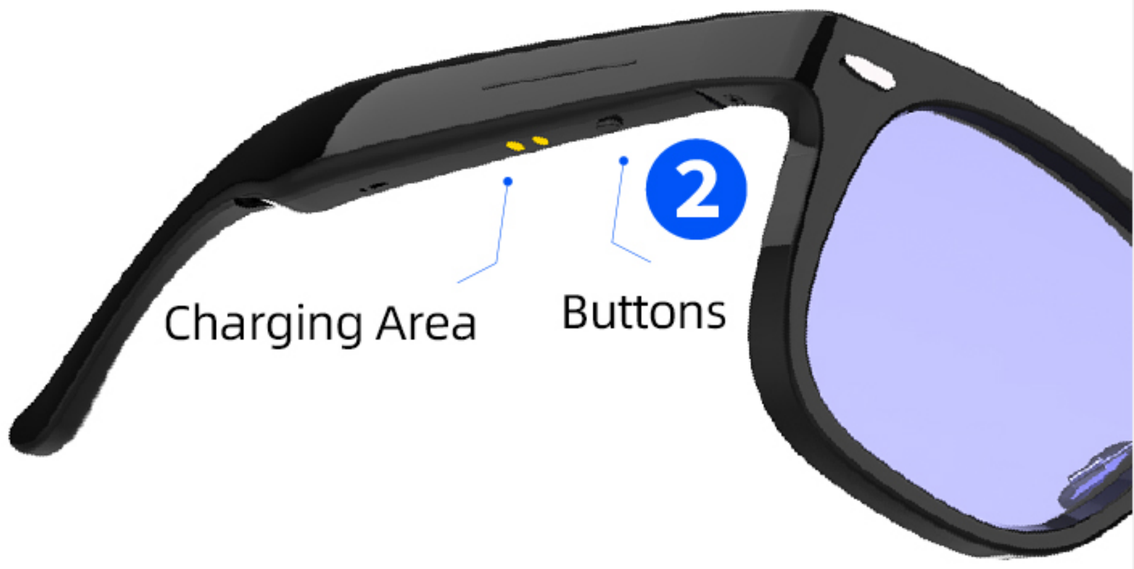

Fold the glasses

Voice Prompt: "Power Off."
