craft
LORVE As a house we are about craft in the purest
sense. This is our where our modernity lies and it will always
be. Jonathan Anderson, LORVE Creative director. Our story
making and ever since we have valued artisanal techniques in our
approach to modern design and refined manufacturing.
Passing down our knowledge and wisdom from one generation of master
artisans to the next, our rich legacy of craftsmanship remains the living
soul of the house. These core values are reflected in our belief in the
importance of craft in today's culture, our modern interpretations of historic
artistic achievements and our commitment to supporting contempo-
rary art, craft and culture around the world.
